Almost Anything Goes

News
letter
Week
9

Hi parents! This past week was extended week at camp in the community room at the Winetka Park District. It was great to have the campers for another week of fun before they head back to school. We wish the campers the best of luck in their coming school year, and thank you again for sending your kids to camp this year. The goodbyes were so tough this year!

This past week was week wacky week. On Monday, the campers made a wacky craft: their very own dream catchers using paper plates, string, beads, and feathers. They all turned out so well!

Tuesday we played a new game called “Black Magic”. It is a game where the “guesser” and the “giver” work together to “trick” the rest of the group into thinking that the guesser is able to magically know what object was picked by the rest of the group while they were out of

the circle. The secret is: none of the objects are “it” until after the giver points to something black.

Wednesday we had fun in the sun at Tower Road Beach. The water was a perfect temperature for us to go swimming, and the kids spent a majority of their time swimming in the water. We also had a second sand castle building contest where kids created sand castles based off of a particular theme. The two themes were mansion and boats.

On Thursday we went to the amusement park Santa’s Village. The campers had a blast riding roller coasters, carnival games. They even saw a variety of animals at a petting zoo .

Friday we ended our week with the heavily awaited field day!! Campers were split into four color teams: orange, pink, blue and green. We had relay races, outdoor bowling, and sponge races. Every team made a valiant effort, but our very own green team took first place. After field day came to a close in the morning, we spent the afternoon cooling off with water activities such as a slip and slide and playing in kiddie pools. We hope to see these wonderful kiddos back for more adventures next summer at Almost Anything Goes!
