

Week 8 (7/30-8/3) Newsletter

Kiddie Camp

Camp continues! It has been a great first extended week at the paddle hut. Given our limited amount of space, we sure have been able to still have lots of fun!

Recap:

On Monday, we were supposed to have a storyteller from the library come but unfortunately she was not able to make it! We still had lots of fun playing on the playground and in the toy room as well as getting to draw on the sidewalk with chalk!

On Tuesday, we had another great day and got to make our very own slime! The kids got their own individual cups to put all the ingredients in, with the help of the counselors. The kids had a great time seeing ordinary glue and water turn into to fun green slime!

On Wednesday, the campers made their own rainbows out of paper plates that they were later able to bring home! The kids colored half paper plates then got to blue ribbon to the bottom and cotton balls to the top to make fun rainbows.

On Thursday, we beat the rain and made a craft to celebrate! The kids got to make paper plate suns that they colored themselves and then glued on orange and yellow rays along the outside to make fun suns that they could take home!

On Friday, we concluded the very hot week with a cool off at water day! The kids moved to the turf and got to play in the pools and in the sprinkler as well as playing with super soakers and bubbles! It was a great way to end an awesome first extended week!

Reminders:

Thanks for a great first extended week and help with the change of scenery! If your child is coming back for the second extended week, the location and drop off and pick up times are all the same. If your child is not, thanks for coming and we had a really great summer getting to play with them! Next week, water day will again be on **Friday**. Additionally, if by accident your son or daughter came home with a towel last week that says "Liam" on it, please contact the camp phone at (847)-770-0818. Thanks so much and have a great weekend!
