WINNETKA PARK DISTRICT REMARKS FROM VISITORS & PUBLIC COMMENT

At regular Park Board meetings, there is an agenda item called Remarks from Visitors. Remarks may also be solicited at special meetings. Public hearings are specifically designed to seek feedback from the community.

If you have a question or concern and need to address the Board at any of these meetings, please comply with the basic guidelines below.

- 1. The Board President will chair the meeting.
- 2. Any resident or visitor wishing to address the Board, an individual Board member or a guest presenter, must direct their questions and comments to the President at the appropriate time or at the President's invitation.
- 3. The Board will hear a resident's or visitors comments only after the President has recognized the individual to speak.
- 4. Speakers are asked to state their name for the public record.
- 5. Speakers will be allowed three minutes and may not yield their time to other speakers.
- 6. Persons wishing to speak for a second time may do so with the consent of the President, only after all others have had an opportunity to address the Board.
- 7. Please refrain from comment or question at a Public Hearing until the presentation has been completed.
- 8. At the discretion of the Chair, you may be asked to submit your question in writing on a 3 x 5 card and you will receive a written response with one week of the hearing.

The President will strive to allow all residents and visitors equal opportunity to address the Board. In general the Board will not comment or respond to issues requiring Board consideration until the issue has been reviewed by the Board/staff.

The Board often has a full business agenda and must complete the work of the Park District at scheduled meetings. Please do not repeat comments or questions that have already been made by others and please do not interrupt commissioners or other speakers.

CERTIFIED PUBLIC ACCOUNTANTS

June 9, 2022

The Honorable District President Members of the Board of Commissioners Winnetka Park District, Illinois

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Winnetka Park District, Illinois for the year ended December 31, 2021. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 9, 2022. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in the Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended December 31, 2021. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the governmental and business-type activities' financial statements were:

Management's estimate of the depreciation expense on capital assets is based on assumed useful lives of the underlying capital assets, the net pension (asset) is based on estimated assumptions used by the actuary, and the total OPEB liability is based on estimated assumptions used by the actuary. We evaluated the key factors and assumptions used to develop the depreciation expense, net pension (asset), and the total OPEB Liability estimates in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Any material misstatements detected as a result of audit procedures were corrected by management.

Significant Audit Findings - Continued

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 9, 2022.

Management Consultations with Other Independent Auditors

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the other supplementary information and supplemental schedules, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory section and statistical section, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, and we do not express an opinion or provide any assurance on it.

Restrictions on Use

This information is intended solely for the use of the Board of Commissioners and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.

We wish to express our gratitude to the Board of Commissioners and staff (in particular the Finance Department) of the Winnetka Park District, Illinois for their valuable cooperation throughout the audit engagement.

To Winnetka Park District Residents:

State law requires that every general-purpose local government publish within six months of the close of the fiscal year, a complete set of audited financial statements. These statements are presented in conformity with Generally Accepted Accounting Principles (GAAP) and audited by a firm of licensed certified public accountants. This report is published to fulfill that requirement for the fiscal year ended December 31, 2021.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that it has established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Lauterbach & Amen, LLP, Certified Public Accountants, have issued an unmodified ("clean") opinion on the financial statements of the Winnetka Park District for the year ended December 31, 2021. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

THE REPORTING ENTITY AND ITS SERVICES

The Winnetka Park District is located 18 miles north of downtown Chicago and encompasses an area of approximately 238 acres in Cook County. The District serves all of the Village of Winnetka, and small sections of the Village of Glencoe to the north, the Village of Kenilworth to the south, and the Village of Northfield to the west. The area is essentially fully developed, exhibiting a substantial residential sector.

The District, incorporated on February 4, 1904, is governed by a Commissioner-Director form of government and provides recreational services and opportunities to all residents of the District. To accomplish this, the District follows a written mission statement as follows: "Our Mission is to provide a balance of quality recreation and leisure opportunities, while protecting assets, natural resources, and open space for the benefit of present and future generations."

Based on that mission, the District provides a full range of services that include preservation of open spaces and park management, recreational programs and capital development. Recreation facilities operated by the District include 26 park sites, five lakefront beaches including one boat launch, one 18-hole and one 9-hole golf course, a golf driving range, a tennis facility with eight indoor and 12 outdoor courts, a paddle tennis facility with six courts, an indoor ice skating rink, eight baseball/softball. It is important to note that as the demand for recreation services increases, the District continues to seek intergovernmental agreements for the joint construction of much needed recreation facilities for its residents.

50

The District is required to adopt a final budget and appropriations ordinance by no later than 90 days after the beginning of the fiscal year. This annual Budget and Appropriations Ordinance serves as the foundation of the Winnetka Park District's financial planning and control. This budget is prepared by fund, organization (e.g., athletic fields) and activity (e.g., men's softball).

On June 15, 2020, the District was assigned a rating of Aal for its Alternate Revenue Bonds, Series 2020.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Winnetka Park District operates.

Local Economy. The Village of Winnetka and surrounding area is primarily a residential community with minimal commercial and industrial properties. The area is essentially fully developed. The District's population is affluent and the median housing value is \$1,091,700.

Long-Term Financial Planning. The District has been operating for the past 23 years under the Property Tax Limitation Act. During the past several years, operating expenses have generally increased more rapidly than tax revenues. As a result, long-range planning has become more critical. In prior years, the District increased the fund balance in the General Fund to help finance anticipated future cash outflows derived from planned major initiatives which began in 2012. During 2021, the District acquired \$50,000 in debt certificates as a backup plan to provide short-term capital funding to help fund major lakefront capital projects.

An annual budget is prepared by staff using the strategic plan, prior year budget detail, completed business plans, prior year usage statistics, current year estimated increases/decreases from vendors and various "Budget Assumptions."

The legal level of budgetary control is at fund level. The Winnetka Park District has eight governmental funds, the General Fund, five special revenue funds, the Debt Service Fund, and the Capital Projects Fund.

Major Initiatives. Each year when preparing the budget, the District identifies facilities, property or programs that need to either be acquired, developed or expanded to better meet the needs of the citizens and to enhance the quality of recreation within the community. During the 2022 budget process, the Board of the Winnetka Park District approved a capital budget for \$11,560,277. Specific projects include the continued implementation of certain elements of the Lakefront Master Plan at a cost of \$10,136,000, \$80,000 and \$148,000, respectively, for equipment and improvements at the Golf Course and Tennis Center, as well as \$468,000 for various pieces of playground equipment and other improvements throughout the District.

During 2021, the capital improvements focused on repair, replacement and maintenance of existing facilities, equipment and park sites as well as planning for future lakefront improvements. Improvements included lakefront bluff restoration, shoreline protection and planning for other lakefront improvements as well as various vehicle and equipment purchases throughout the District.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) annually awards a Certificate of Achievement for Excellence in Financial Reporting to qualifying governments. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report (ACFR). This report must also satisfy both GAAP and applicable legal requirements. A ACFR is valid for one year.

The Winnetka Park District was awarded the Certificate of Achievement for Excellence in Financial Reporting for its Annual Comprehensive Financial Report for the fiscal years 2007 through 2020. This prestigious award is the highest form of recognition in government accounting and financial reporting.

Acknowledgments. We want to thank the members of the finance department staff for their continued attention to detail in financial reporting. Each member has our sincere appreciation for the contributions made in the preparation of this report. Credit also must be given to the Board of Commissioners for their unfailing support for maintaining the highest standards of professionalism in the management of the finances of the Winnetka Park District. We also wish to thank the professional approach of the staff from Lauterbach & Amen, who performed the audit.

Sincerely,

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITORS' REPORT

June 9, 2022

The Honorable District President Members of the Board of Commissioners Winnetka Park District, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Winnetka Park District, Illinois, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Winnetka Park District, Illinois, as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Winnetka Park District, Illinois June 9, 2022 Page 2

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

10

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Winnetka Park District, Illinois' basic financial statements. The other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements attements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

WINNETKA PARK DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

This narrative overview and analysis of the Winnetka Park District's financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2021. Please read it in conjunction with the additional information that has been furnished in the transmittal letter (located in the introductory section of this report) and the District's financial statements (located in the basic financial statements section of this report).

FINANCIAL HIGHLIGHTS

- The District's net position (assets and deferred outflows minus liabilities and deferred inflows) totaled \$30,898,984 at December 31, 2021 compared to the net position of \$28,012,209 at December 30, 2020, an increase of \$2,886,775. Of this amount, \$21,060,845 is net investment in capital assets, \$952,904 is restricted and \$8,885,235 is unrestricted and available to meet ongoing and future obligations to citizens and creditors.
- Property and replacement taxes collected were \$5,976,417 and \$67,443, respectively, in 2021 compared to \$5,827,499 and \$32,130 in 2020. The increase of \$148,918 in property taxes reflects a 3.1% increase to the tax levy for operations over 2020.
- Charges for services resulted in revenues of \$8,361,856, an increase of \$1,853,899 over \$6,507,957 in the prior year.
- The General Fund reported an increase in fund balance of \$182,282, compared to last year's decrease of \$127,892 and a budgeted increase of \$322,060.
- The District's outstanding general obligation debt at December 31, 2021 was \$17,655,000.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the District as a whole and present a longer term view of the District's finances. For governmental activities, these statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements also report the District's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances. The two government-wide financial statements, Statement of Net Position and Statement of Activities represent an overview of the District as a whole, separating its operations between governmental and business-type activities. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position presents information on all of the District's assets/deferred outflows and liabilities/ deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other non-financial factors, such as changes in the District's property tax base, the condition of parks and facilities, satisfaction of stakeholders, and other information beyond the scope of this report, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the District include general government and recreation. Business-type activities reflect the District's private sector-type operations, where the fee for services typically covers all or most of the cost of operation including depreciation. The business-type activities of the District consist of the golf course, tennis center, ice arena and the platform tennis operations.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Within the basic financial statements, fund financial statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Recreation Fund, the Municipal Retirement Fund, the Debt Service Fund and the Capital Projects Fund; all of which are considered to be major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for its governmental funds. Budgetary comparison schedules have been provided for the governmental activities to demonstrate compliance with this budget.

Proprietary Funds

The District maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses the enterprise fund to account for its golf operation, tennis operation, paddle tennis operation and indoor ice operation. The operation of the Winnetka Golf Club, AC Nielsen Tennis Center, Winnetka Paddle Tennis Center and the Winnetka Artificial Ice Skating Rink (Winnetka Ice Arena) predominantly benefits the business-type function of the District and is included in the business-type activities in the government-wide financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplemental Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension liability, retiree benefits plan, and budgetary comparison schedules for the General Fund and major special revenue funds.

Other Supplemental Information

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that, in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$30,898,984.

The largest portion of the District's net position (68.2% or \$21,060,845) reflects the investment in capital assets (for example land, buildings, machinery and equipment) less any related debt used to acquire those assets that may still be outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, 3.1% or \$952,904, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining 28.8% or \$8,885,235, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the District's net position changed during the fiscal year:

Net position of the District's governmental activities increased by 15.1%, or \$2,317,442 (\$17,643,303 in 2021 compared to \$15,325,861 in 2020). Net position of business-type activities increased 4.5%, or \$569,333 (\$13,255,681 in 2021 compared to \$12,686,348 in 2020).

Governmental Activities

The cost of all governmental functions in 2021 totaled \$7,625,793. Revenues to fund governmental activities totaled \$9,943,235; \$3,063,786 from those who directly benefited from these activities, \$5,976,417 from property taxes and \$903,032 from other income.

The following table graphically depicts the major revenue sources of the District. It depicts very clearly the reliance of property taxes and charges for services to fund governmental activities.

2021 Revenues by Source - Governmental Activities

The Revenue and Expense Table compares governmental revenues and expenses for 2021.

2021 Revenues and Expenses - Governmental Activities

Governmental activities increased the District's net position by \$2,317,442. Entity-wide performance was affected by:

• Total revenues were higher in 2021 than 2020 by \$1,876,781; property taxes revenue were higher by a total of \$148,918 and the charges for services were higher by \$1,061,965.

• Total expenses were higher in 2021 than 2020 by \$574,333; IMRF deferred items and net pension (asset) netted to a decrease of \$916,324.

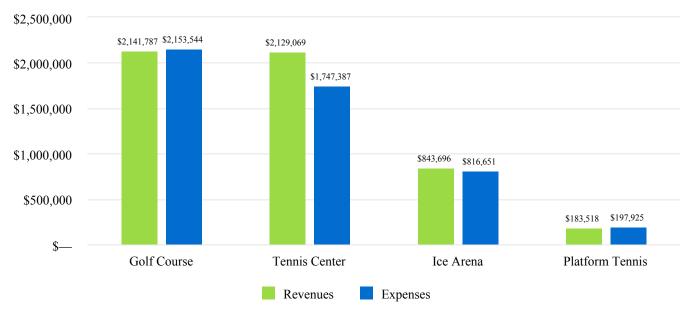

Business-Type Activities

Business-type activities posted total revenues of \$5,502,183, while the costs of all business-type activities totaled \$4,932,850. This increased the District's net position by \$569,333.

2021 Revenues and Expenses - Business-Type Activities

The combined net position increase was as follows: The Golf Course increased \$71,457, the Tennis Center increased \$429,613, the Ice Arena increased \$77,633 and Platform Tennis decreased \$9,370. The key elements of this change are as follows:

- Business-type activities include depreciation expense of \$628,319.
- In 2021, Golf operating revenues were \$440,602 more than budget while operating expenses were \$67,555 over budget.
- The Tennis Center operating revenues were \$265,810 less than budget while operating expenses were \$138,446 under budget.
- The Ice Arena operating revenues were \$41,304 less than budget while operating expenses were \$22,270 under budget.
- General Administrative and Garage Allocations were a combined \$-302,157 over budget across all 4 facilities.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$11,652,927, which is \$497,407 more than last year's total of \$11,155,520. During 2021, the District issued \$50,000 in Debt Certificates to fund major capital projects. At the end of the year, the Capital Projects Fund had an ending fund balance of \$4,220,272, a decrease of \$1,632,991 over 2020. Additionally, due to COVID-19, governmental revenues were lower than budget in all categories except miscellaneous income. The District was reimbursed over \$36,000 for fire damage to a storage building caused by vandalism. Expenditures in 2021 were lower than budget in many categories due to the ongoing COVID-19 pandemic as well as purposeful spending reductions which were made to offset the decreased revenues described above.

Of the total ending fund balance amount of \$11,652,927, \$1,165,702 constitutes unassigned fund balance which is available for spending at the discretion of the District, \$235,000 constitutes assigned fund balance, \$9,182,188 constitutes committed fund balance, \$977,290 constitutes restricted fund balance which is the portion of net position that is subject to external enforceable legal restrictions (property tax levies) and \$92,747 constitutes nonspendable fund balance to indicate that it is not available for new spending because it has already been committed for prepaid items and inventory.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, total fund balance was \$2,580,569 of which \$2,062,934 was unassigned. The fund balance of the District's General Fund increased \$182,282 during the current fiscal year. This compares very favorably to the 2021 budget, as there was a planned use of fund balance of \$322,060 that included debt issuance of \$828,369; the actual amount of debt issued was \$50,000.

The Recreation Fund has a total fund balance of \$4,073,390, an increase of \$1,949,005. The Recreation Fund planned a use of 2021 fund balance of \$804,782. User fees and Recreation Program fees were a combined total of \$291,255 over budget as the number of program offerings expanded and program participants increased due to the lifting of COVID-19 restrictions. Total expenditures were under budget by \$190,645 due to ongoing COVID-19 concerns and major reductions in capital purchases throughout the year.

The Municipal Retirement Fund has a total fund balance of \$341,402, an increase of \$10,869 as both property tax revenue and expenses were slightly under budget.

The Debt Service Fund has a total fund balance of \$147,105, an increase of \$15,335. The increase was due to principal retirement and interest expenditures totaling \$352,677 with an offset property taxes received of \$368,012.

The Capital Projects Fund has a total fund balance of \$4,220,272, a decrease of \$1,632,991. During 2021, a total of \$1,634,400 of capital projects were completed during the year.

Proprietary Funds

The District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Golf Course Fund at the end of the year amounted to \$1,179,617. This is an increase in unrestricted net position of \$397,943. Overall revenues exceeded expenses by \$71,457, resulting in an ending net position balance of \$5,694,296.

The Tennis Center Fund unrestricted net position at the end of the current year increased \$368,261 to \$1,304,854 and net investment in capital assets decreased from \$2,534,596 to \$2,595,948 or \$61,352. The increase in unrestricted net position and the decrease in net investment in capital assets increased net position by \$429,613 to \$3,900,802. Revenues were over budget by \$265,810 due to the lifting of COVID-19 restrictions and expenses were over budget by \$18,864 in 2021.

The Ice Arena Fund unrestricted net position at the end of the year amounted to \$1,309,100, an increase of \$196,685 and net investment in capital assets decreased from \$1,812,416 to \$1,693,364 or \$119,052.

The Platform Tennis Fund unrestricted net position ended the year at \$193,039, an increase of \$16,230. Net investment in capital assets increased by \$25,600, from \$490,680 to \$465,080. These changes result in a decreased net position of \$9,370, from \$667,489 to \$658,119. This compares favorably to a budgeted surplus of \$29,131.

General Fund Budgetary Highlights

During the year, no supplemental amendments were made to the budget for the General Fund.

The General Fund actual revenues were over than budgeted revenues. Actual revenues for the current year were \$4,657,810, compared to budgeted revenues of \$4,479,366. This resulted primarily from replacement taxes coming in over budget by \$35,443. garage coming in over budget by \$290,439, and offset by general and administrative being under budget by \$47,683.

The General Fund actual expenditures were over budgeted expenditures by \$368,222. Actual expenditures totaled \$4,525,528, while budgeted expenditures totaled \$4,157,306. The majority of this was due to capital spending finishing under budget by \$64,506. Some projects came in under budget and some projects /purchases were put on hold during the COVID-19 pandemic. Other areas below budget were salaries by \$321,841, supplies by \$29,159, services by \$196,204, utilities by \$71,597, and allocations by \$951.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental and business-type activities as of December 31, 2021 amounts to \$34,156,604 (net of accumulated depreciation) as reflected in the following table.

Major capital asset events during the current fiscal year included the following:

- Lakefront Bluff Restoration, Shoreline Protection and other Lakefront Improvements at a cost of \$1,273,238.
- Outdoor Tennis Court resurfacing at a cost of \$62,100. ٠
- Tennis Court Lighting at a cost of \$94,695.
- Park Paths and Sidewalks Paving at a cost of \$94,160 •

Additional information on the District's capital assets can be found in Note 3 of this report.

Long-Term Debt

At the end of the current fiscal year, the District had total bonded debt outstanding of \$18,213,263 which is all debt backed by the full faith and credit of the government.

The District's total debt decreased \$479,361 (2.6 percent) during the current fiscal year. This decrease is due to the \$50,000 in debt issuance, \$505,000 in debt retirements, and the \$24,361 amortization of bond premiums.

The District was awarded an "Aa1" rating from Moody's Investor Service in fiscal year December 31, 2021 for general obligation debt. State statutes limit the amount of general obligation debt a government entity may issue to 2.875 percent of its total assessed valuation. The current debt limitation for the District is \$45,523,512, which is significantly in excess of the District's outstanding general obligation debt.

Additional information on the District's long-term debt can be found in Note 3 of this report.

Economic Factors and Next Year's Budget

The District's staff and Board of Commissioners considered many factors when setting the 2022 budget, tax rates and fees that will be charged for its governmental activities. One of those factors is the economy. The unemployment rate for 2021 for the Village of Winnetka is 5.9% which is under the state unemployment rate of 6.13%

The 2021 tax levy (for taxes collected in 2022) will include a prior year levy adjustment pursuant to Public Act 102-0519 totaling \$65,167. This amount is not subject to PTELL (Property Tax Extension Limiting Law). Collection delays in the Cook County Assessor's Office will cause a delay receiving tax revenue in the second half of 2022. The District continues to rely on user fees that mitigate the limitations on property tax revenues affecting the District.

The 2022 Budget increased by \$1,461,432 or 6.81%, from \$21,460,211 to \$22,921,643. During the budget process, the District reviews and revises its Long Range Plan (LRP) to reflect changes in the condition of its capital assets, the financial capacity and condition of the Park District and the impact of these factors on the programming needs of the citizens and the maintenance of park property and facilities as well as the preservation of open space.

Capital Projects increased \$1,179,927 from \$10,380,350 to \$11,560,277. Major capital renovations for 2022 include \$10,136,000 for the Lakefront renovations, \$468,500 for equipment and renovation to the Parks, \$238,500 for equipment and improvements to the Golf Course and Golf Maintenance Center, \$204,000 equipment and improvements at the Tennis Center, and \$321,914 for various miscellaneous capitals throughout the District.

As of the date of this report, the impact of COVID-19 on the District's operations and financial position has caused some personnel turnover but the staff has maintained continuity of operations, programming remains strong and all park district facilities are open and fully staffed. No long-term consequences from the pandemic have become evident.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Members of the Board of Commissioners (District) of Illinois, incorporated in 1904, is duly organized and existing under the provisions of the laws of the State of Illinois. The District is operating under the provisions of the Park District Code of the State of Illinois approved July 8, 1947 and under all laws amendatory thereto. The District operates under the commissioner-director form of government. The District provides a variety of recreational facilities, programs and services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the District's accounting policies established in GAAP and used by the District are described below.

REPORTING ENTITY

The District's financial reporting entity comprises the following:

| Primary Government: | Winnetka Park District |
|--------------------------------------|---------------------------|
| Discretely Presented Component Unit: | Winnetka Parks Foundation |

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the District.

Discretely Presented Component Unit

Discretely presented component units are separate legal entities that meet the component unit criteria described above but do not meet the criteria for blending.

Foundation

The Winnetka Parks Foundation was founded in 2014 primarily to help raise capital funds for a new Aquatic Center. The Foundation has since broadened its focus to continue to support and promote the mission of the Winnetka Park District. The Foundation's Board is separately appointed. The Foundation is included within the reporting entity since the District has the ability to otherwise access the resources of the Foundation which are entirely held for the benefit of the District, and the resources held by the Foundation are significant to the District. The Foundation was previously reported as an Agency Fund of the District as it did not meet this criteria for discrete presentation in the past. The Foundation issues separate audited financial statements. Copies of those statements can be obtained by contacting the District at 540 Hibbard Road, Winnetka, Illinois 60093.

BASIS OF PRESENTATION

Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The District's preservation of open space, recreational program activities, development and maintenance of the District's various parks and facilities, and general administration are all classified as governmental activities. The District's golf, tennis, paddle tennis and artificial ice skating services are classified as business-type activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Government-Wide Statements - Continued

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions and business-type activities (general government, culture and recreation, etc.).

The functions are supported by general government revenues (property and personal property replacement taxes, certain intergovernmental revenues, interest income, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property and person property replacement taxes, certain intergovernmental revenues, interest income, etc.).

The District does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds that is eliminated like a reimbursement (reducing the revenue and expense in the General Fund) to recover the direct costs of General Fund services provided (finance, personnel, purchasing, garage operations, technology management, etc.).

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. An emphasis is placed on major funds within the governmental and enterprise categories. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Government-Wide Statements - Continued

Fund Financial Statements - Continued

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds. The General Fund is a major fund.

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains five special revenue funds. The two major special revenue funds are the Recreation Fund and the Municipal Retirement Fund. The Recreation Fund accounts for the revenue derived from property tax levy and fees collected to fund recreational programs and facilities, maintenance of athletic fields, maintenance of outdoor ice, maintenance of the boat launch and various beaches of the District. The Recreation Fund reports charges for services for recreation programs and property taxes as the major revenue sources for the fund. Charges for services are committed to future recreation programs and facilities and property taxes are restricted to future recreation programs and facilities. The Municipal Retirement Fund accounts for the revenues derived from the restricted property tax levy for the contributions to the Illinois Municipal Retirement Fund and the payment of Medicare and Social Security Taxes to the Federal Government.

Debt service funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Debt Service fund is treated as a major fund and records the District's general long-term debt activity.

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The District maintains one major capital projects fund, the Capital Projects fund. The Capital Projects fund accounts for expenditures of the proceeds from the sale of bonds for the payment of land condemned or purchased for parks, for the building, maintaining, improving and protecting of the same and the existing land and facilities of the District.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District:

Enterprise funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The District maintains four enterprise funds. The three major enterprise funds are the Golf Course, the Tennis Center, and the Ice Arena Funds. The Golf Course Fund accounts for the administration, operation, maintenance and related debt service of the District's tennis facilities. The Ice Arena Fund accounts for the administration, operation, maintenance and related debt service of the District's tennis facilities. The Ice Arena Fund accounts for the administration, operation, maintenance and related debt service of the District's tennis facilities. The Ice Arena Fund accounts for the administration, operation, maintenance and related debt service of the District's tennis facilities. The Ice Arena Fund accounts for the administration, operation, maintenance and related debt service of the District's ice skating facility.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Measurement Focus - Continued

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/ deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and businesstype activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the District's investments are in 2a7-like investment pools that are measured at the net asset value per share determined by the pool.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are amounts provided with a requirement of repayment. Interfund loans are reported as due from other funds in lender funds and due to other funds in borrower funds for short-term borrowings, and advances to other funds in lender funds and advances from other funds in borrower funds for long-term borrowings. Amounts are reported as internal balances in the government-wide Statement of Net Position, except for amounts between similar activities, which have been eliminated. Services provided and used are sales and purchases of goods and services between funds for a price approximating their external exchange value. Interfund services provided and used are reported as revenues in seller funds and expenditures or expenses in purchaser funds. Unpaid amounts are reported as due to/ from other funds in the fund Balance Sheets or Statements of Net position. Reimbursements are reported as repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are reported in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Transfers are flows of assets (such as cash or goods) without equivalent flows of assets in return and without the requirement of repayment. In governmental funds, transfers are reported as other financing uses in the fund making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers in/ out are reported as a separate category after non-operating revenues and expenses.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes. Business-type activities report charges for services as their major receivables.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Prepaids/Inventories

Prepaids/inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepaids/inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more, depending on classification, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

| Land Improvements | 17 - 50 Years |
|----------------------------|---------------|
| Buildings and Improvements | 17 - 50 Years |
| Infrastructure | 20 - 30 Years |
| Machinery and Equipment | 10 - 25 Years |
| Vehicles | 4 - 5 Years |

Deferred Outflows/Inflows of Resources

Deferred outflow of resources represent a consumption of net assets that applies to future periods. Deferred inflow of resources represents an acquisition/reduction of net position that applies to a future period

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY - Continued

Compensated Absences

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

All departments of the District submit requests for appropriation so that an appropriation ordinance may be prepared. The appropriation ordinance is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

The proposed appropriation ordinance is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations. All appropriations are adopted on a basis consistent with generally accepted accounting principles (GAAP). The appropriation ordinance may be amended by the governing body. Expenditures may not legally exceed appropriation allocations at the fund level. The District adopts appropriations for all of the governmental funds. During the year, no supplementary appropriations were necessary.

EXCESS OF ACTUAL EXPENDITURES/EXPENSES OVER BUDGET IN INDIVIDUAL FUNDS

The following funds had an excess of actual expenditures/expenses, exclusive of depreciation over budget as of the date of this report:

| Fund | Excess | | |
|-----------------|---------------|--|--|
| | | | |
| General | \$ 368,222 | | |
| Golf Course | 67,555 | | |
| Platform Tennis | 32,532 | | |

NOTE 3 - DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments - Statutes authorize the District to make deposits/invest in commercial banks, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, the Illinois Funds and the Illinois Park District Liquid Assets Fund.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, which is the price for which the investment could be sold.

Notes to the Financial Statements December 31, 2021

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

The Illinois Park District Liquid Asset Fund allows Illinois park districts, forest preserves and joint recreational programs to pool their funds for investment purposes. The Illinois Park District Liquid Asset Fund is composed of finance officials and treasurers all of whom are employees of the Illinois public agencies, which are investors in the Illinois Park District Liquid Asset Fund. The Illinois Park District Liquid Asset Fund is not registered with the SEC as an Investment Company. Investments in the Illinois Park District Liquid Asset Fund are valued at the share price, the price for which the investment could be sold.

Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration of Credit Risk

At year-end, the carrying amount of the District's deposits totaled \$8,048,358 and the bank balances totaled \$8,201,587. The District also has \$78,771 in the Illinois Funds and \$9,157,590 in the Illinois Park District Liquid Assets Fund.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's limits its exposure to interest rate risk by attempting to coincide its investment maturities with projected cash flow needs. The investment policy requires that the maximum maturity of its investments shall be under 10 years. The average maturity of the total portfolio shall not exceed 5 years. The Illinois Funds and Illinois Park District Liquid Assets Fund have an average maturity of less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper, corporate bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The District's investment policy does not further limit its investment choices. As of December 31, 2021, the District's investment in Illinois Funds is rated AAAm by Standard & Poor's and the District's investment in the Illinois Park District Liquid Assets Fund is rated AAAm by Standard & Poor's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. At December 31, 2021, the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance. Furthermore, the District's investment policy states that the amount of collateral provided will not be less than 110% of the fair market value of the net amount of public funds secured. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance. For an investment, this is the risk that, in the event of the failure of the counterparty, the will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2021, the District's investment in Illinois Funds and Illinois Park District Liquid Asset Fund is not subject to custodial credit risk.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District has adopted a policy addressing concentrations of credit risk. The policy states that commercial paper cannot exceed 10% of the portfolio, U.S. Agencies cannot exceed 20% of the total portfolio, and certificates of deposit in any one financial institution cannot exceed 10% of the portfolio unless fully insured. The policy places no limit on the amount the District may invest in U.S. Treasury bills, notes and bonds, Illinois Funds and Illinois Park District Liquid Assets Funds. At December 31, 2021, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

PROPERTY TAXES

Property taxes for 2020 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by Cook County and are payable in two installments on or about March 1 and August 1. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 1.5% of the tax levy, to reflect actual collection experience. Since the 2021 levy is intended to fund the 2022 calendar year, the levy has been recorded as a receivable and deferred inflow of resources.

CAPITAL ASSETS

Governmental Activities

Governmental capital asset activity for the year was as follows:

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Commissioners; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

NOTE 3 - DETAIL NOTES ON ALL FUNDS - Continued

FUND BALANCE CLASSIFICATIONS - Continued

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Commissioners' intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Commissioners itself or b) a body or official to which the Board of Commissioners has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Commissioners, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The Districts policy manual states that the General, Recreation, and other special revenue funds should maintain a minimum available fund balance equal to three months of budgeted operating expenditures, excluding transfers and capital expenditures.

RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to the District's employees; and net income losses. These risks are provided for through participation in the Park District Risk Management Agency and private insurance coverage. The District has purchased insurance from private insurance companies; covered risks include medical, dental, life and other. Premiums have been displayed as expenditures/expenses in appropriate funds. There were no significant changes in insurance coverages from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

RISK MANAGEMENT - Continued

Park District Risk Management Agency (PDRMA) - Continued

As a member of PDRMA, the District is represented on the Board of Directors and is entitled to one vote. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body. The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigations and settlement and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Board of Directors. PDRMA also provides its members with risk management services, including defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's balance sheet at December 31, 2020 and the statement of revenues and expenses for the period ending December 31, 2020. The District's portion of the overall equity of the pool is 1.181% or \$670,563.

| Operating Revenues | 19,454,155 |
| Nonoperating Revenues | 4,109,196 |
| Expenditures | 16,158,333 |

Since 89.98% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Member Balances are adjusted annually as more recent loss information becomes available.

CONTINGENT LIABILITIES

Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney the resolution of these matters will not have a material adverse effect on the financial condition of the District.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Financial Impact from COVID-19

In March 2020, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the District's operations and financial position cannot be determined.

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLAN

Illinois Municipal Retirement Fund (IMRF)

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multipleemployer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. IMRF provides retirement, disability, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefits, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

Plan Descriptions

Plan Administration. All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Descriptions - Continued

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2021, the measurement date, the following employees were covered by the benefit terms:

| Inactive Plan Members Entitled to but not yet Receiving Benefits | 71 |
| Active Plan Members | 59 |

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2021, the District's contribution was 10.88% of covered payroll.

Net Pension (Asset). The District's net pension (asset) was measured as of December 31, 2021. The total pension liability used to calculate the net pension (asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2021, using the following actuarial methods and assumptions:

| Actuarial Cost Method | Entry Age Normal |
|--|---------------------|
| Asset Valuation Method | Fair Value |
| Actuarial Assumptions Interest Rate | 7.25% |
| Salary Increases | 2.85% to 13.75% |
| Cost of Living Adjustments | 2.25% |
| Inflation | 2.25% |

Actuarial Assumptions – Continued. For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| | | Long-Term Expected Real |
|---------------------------|--------|----------------------------|
| Asset Class | Target | Rate of Return |
| | | |
| Fixed Income | 25.00% | 2.00% |
| Domestic Equities | 39.00% | 4.50% |
| International Equities | 15.00% | 5.75% |
| Real Estate | 10.00% | 5.90% |
| Blended | 10.00% | 4.30% - 8.10% |
| Cash and Cash Equivalents | 1.00% | 1.70% |

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

OTHER POST-EMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan Description. The District's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for all permanent full-time general employees of the District. RBP is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. RBP provides healthcare benefits for retirees and their dependents. The benefit terms provide for payment of 100 percent of health insurance premiums for non-Medicare-eligible retirees. The District pays the difference between the actuarial cost of the health coverage for retirees and the blended average employee group cost.

Plan Membership. As of December 31, 2021, the measurement date, the following employees were covered by the benefit terms:

| Inactive Plan Members Currently Receiving Benefits | 6 |
|--|----|
| Inactive Plan Members Entitled to but not yet Receiving Benefits | |
| Active Plan Members | 35 |
| Total | 41 |

Total OPEB Liability

The District's total OPEB liability was measured as of December 31, 2021, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Inflation | 3.50% |
|--|---|
| Salary Increases | 3.50% |
| Discount Rate | 1.84% |

JOINT VENTURE

Northern Suburban Special Recreation Association (NSSRA)

The District, along with nine other park districts, two Cities, and one District, has entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each member agency shares equally in the Association and generally provides funding based on up to .0400 cents per \$100 of its equalized assessed valuation. The District contributed \$305,495 to NSSRA during the current fiscal year. The District does not have a direct financial interest in the NSSRA and, therefore, its investment therein is not reported within the financial statements. Upon dissolution of NSSRA, the assets, if any, shall be divided among the members in accordance with an equitable formula as determined by a unanimous vote of the Board of Directors of the Association.

A complete, separate financial statement for the Association can be obtained from the Association's administrative offices at 1221 County Line Road, Highland Park, IL 60035.

DISCRETELY PRESENTED COMPONENT UNIT - WINNETKA PARKS FOUNDATION

Summary of Significant Accounting Policies

This report contains the Winnetka Parks Foundation (Foundation), which is included as a discretely presented component unit. Financial information is presented as a discrete column in the Statement of Net Position and Statement of Activities.

In addition to the basic financial statements and the preceding notes to the financial statements which apply, the following additional disclosures are considered necessary for a fair presentation.

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting in which revenue is recognized when earned and expenses are recognized when incurred.

Net Assets

The Foundation's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Net assets of the Foundation and changes therein are classified and reported as follows:

Net Assets with Donor Restrictions - Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

Net Assets without Donor Restrictions - Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Foundation's management and the board of directors.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the Statement of Activities.

Cash and Cash Equivalents

For purposes of reporting cash flows, cash is defined as cash on hand, demand deposits and all highly liquid investments with an original maturity of three months or less.

Income Taxes

The Foundation is exempt from income tax under IRC section 501(c)(3), and similarly, is exempt from State of Illinois taxes under the Illinois Tax Act Section 205(a), though it is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. The Foundation has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and to identify and evaluate other matters that may be considered tax positions. The Foundation has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements. There was no unrelated business income for the year ended December 31, 2021.

The Foundation's Forms 990, *Return of Organization Exempt from Income Tax*, are subject to examination by the IRS, generally, for three years after they were filed. Annual filings with the State of Illinois are, similarly, subject to examination.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Functional Allocation of Expenses

The costs of providing the various programs and supporting services have been summarized on a functional basis in the statement of activities. Functional expenses which are not directly attributable to one function are allocated between program, management and general, and fundraising services based on the number of employees involved, the amount of time spent, the percentage of their salary associated with the time and on estimated made by the Foundation's management.

Contributed Revenue

Contributions that are restricted by donors are reported as increases in net assets without donor restrictions if the restrictions are satisfied or expire in the reporting period in which the contributions are recognized. All other donor-restricted contributions are reported as increases in net assets with donor restrictions. When restrictions expire (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the Statement of Activities as net assets released from restrictions.

Contributions due in the next year are reflected as current promises to give and are recorded at their net realized value. Unconditional promises to give due in subsequent years are reflected as long-term promises to give and are recorded at the present value of their net realizable value, using risk-free interest rates applicable to the years in which the promises are received to discount the amounts.

Detail Notes on All Funds

In-Kind Donations

Donated Supplies – The Foundation received donated food and beverages for events during the fiscal year 2021. Accordingly, contributions have been recorded for the fair value of the supplies of \$1,417 for the year ending December 31, 2021. These amounts have been included as special events revenue and program services expense on the Statements of Activities.

Cash and Cash Equivalents

At year-end the carrying amount of the Foundation's cash deposits totaled \$128,544 and the bank balances totaled \$128,544. The entire balance of deposits was fully insured by federal deposit insurance.

Availability and Liquidity

The following represents Foundation's financial assets at December 31, 2021:

| Financial Assets at Year End: | |
|---|---------------|
| Cash and Cash Equivalents | \$ 128,544 |
| Less Amounts not Available to be used within One Year: | |
| Net Assets with Donor Restrictions | |
| | |
| Financial Assets Available to Meet General Expenditures | |
| over the Next Twelve Months | 128,544 |

The Foundation's goal is to generally maintain financial assets to meet 90 days of operating expenses. As part of its liquidity plan, excess cash will be invested in short term certificates of deposit.

Commissioners Present: Mickey Archambault, Christina Codo, Warren James, Cynthia Rapp, Colleen Root

Commissioners Absent: Eric Lussen, David Seaman

Staff Present: John Peterson, Executive Director; Kyle Berg, Superintendent of Recreation; Costa Kutulas, Director of Parks and Maintenance; Jim Crocker, Superintendent of Finance; Molly Krohe, Marketing Brand Manager; Libby Baker, Office Associate; Matt McCann, Golf Course Superintendent; Matt Johnson, Golf Manager; Mike Slezak, Asst. Course Supt.; Morgan Harty, The Lakota Group

Audience Present: Kofi Anaman, Teresa Claybrook, Jake Claybrook, Steve Jambor, Connie Henry, Elizabeth Lane, Marie DeLean, Sally Tomlinson, Allen Welch, Jim Dahl

CHANGES TO THE AGENDA

Commissioner announced Agenda item 4B will precede item 4A.

COMMUNICATIONS

Executive Director Peterson commented on the thank you note received from the District 36 School Board.

NEW BUSINESS

Dog Beach/Dog Park Advisory Committee Presentation

Commissioner Archambault introduced committee members Elizabeth Lane, Sally Tomlinson, Marie DeLean, Allen Welch and Jim Dahl and reviewed the objectives of the committee. Morgan Harty of The Lakota Group presented a design proposal and responded to questions.

Commissioner James thanked the committee for all their work and complimented the design. He expressed concern with water level fluctuations and suggested a more robust barrier to separate the dog use area from the public beach, and to help dissipate wave energy. Commissioner Archambault stated the design as proposed would cost approximately \$215k. Committee member Sally Tomlinson spoke about the importance of communicating the plan to the community. She suggested the use of a QR code posted at the current dog beach and around town to link to information about the plan. Ms. Tomlinson explained the committee identified potential questions that may be asked and developed a list of responses. The board was asked to review the FAQ's and provide feedback.

Commissioner Archambault stated the timing of this project should to be addressed as it relates to the Village's pier project and the construction at Elder + Centennial. He noted the committee would like to identify a temporary location because they are concerned construction will begin on Elder + Centennial before the new dog beach is completed. Commissioner Archambault also noted the committee is ready for the public engagement process and would like to begin in June.

Director Kutulas addressed the construction timeline for Elder + Centennial noting Centennial will likely be available through October-November. Commissioner James expressed concern with having a temporary location and the ability to separate off-leash dogs from unaware beach users.

Committee member Jim Dahl recognized the efforts of the committee and thanked the board for their support.

The board concurred to move forward with the public engagement process. Commissioner Root noted some members of the community have learned Tower Road Beach is a proposed location and suggested it would be best to begin the process in early June.

*The board meeting packet was updated on the website to include The Lakota Group presentation.

Kofi Anaman, Director and Founder of Future Builder Scouts

Commissioner James introduced Kofi Anaman, Director and Founder of Future Builder Scouts, an after school enrichment program in Ghana, West Africa. He explained the Future Builder Scouts program and how the Winnetka Boy Scouts became involved. Commissioner James introduced Jake Claybrook from Boy Scout Troop 18 whose Eagle Scout project is to build a playground for the Future Builder Scouts. At a previous meeting Jake Claybrook requested, and was approved for a donation from the Park District of the used Nick Corwin playground equipment. The full Eagle Scout project includes the deconstruction, packaging, and shipping of the equipment to Ghana.

*The board meeting packet was updated on the website to include the Future Builder Scouts presentation.

UNFINISHED BUSINESS

Nick Corwin Playground Renovation Project

A Board Summary describing the project was distributed.

Director Kutulas reviewed the history of Nick Corwin Park, which is scheduled for replacement. He explained the equipment is worn and the playground no longer meets current safety standards. He reviewed the proposed playground design, to include additional curbing and landscaping, and the associated costs. Director Kutulas reviewed designs for proposed future park improvements to include a shade shelter, paver bricks, and additional landscaping. The construction timeline was reviewed. Formal approval will be requested at the May 26, 20022 regular board meeting. If approved, the playground would be completed by August, keeping in line with AYSO's schedule.

At the request of Commissioner Archambault, the board gave Director Kutulas verbal approval to move forward to lock in the quoted price.

Commissioner Rapp recognized Director Kutulas and Jake Claybrook for their work to see this project completed.

*The board meeting packet was updated on the website to include the Board Summary and playground presentation.

Village of Winnetka Stormwater Project Review

A Board Summary and spreadsheet of the bid tabulations were distributed and discussed to inform and prepare the board for a formal recommendation May 26, 2022, or sooner.

Director Kutulas reported the Village received three bids to complete the construction. The bid results are still under review by the Village. Director Kutulas reviewed the bid results and specific projects, as well as costs associated with the identified alternate projects. He noted a discussion might be necessary with the Village about the percentages allocated to the shared based bids, based on the intergovernmental agreement.

Director Kutulas further noted payouts for the project would not begin until 2023.

*The board meeting packet was updated on the website to include the Board Summary and bid tabulation spreadsheet.

Golf Course Construction Management

Director Peterson reported he and Commissioner Codo spoke with KemperSports to further discuss their proposal. He noted KemperSports would not adjust their pricing but offered

assistance with the sale of the current gas golf carts, the purchase of a new lithium fleet, and improvements to the pro shop.

Director Peterson also reported Troon is finalizing their proposal, and GolfVisions has not provided a response.

Director Kutulas informed the board of the lead-time necessary to obtain a transformer to support the golf cart charging ability, and the significant costs associated to provide power.

Elder + Centennial Update

Director Peterson reported the two open house sessions were well attended. Comments and feedback have been received; the results will be compiled and distributed to the board.

Director Kutulas reported the permit application is still in the public comment phase. An archaeological phase one survey is to be completed as required. A survey for 261 Sheridan will also be executed and paid for by the owner.

Responses have been prepared and are under review based on comments received from the Illinois Environmental Protection Agency (IEPA) and United States Army Corps of Engineers (USACE).

BOARD LIAISON REPORTS

District 36 – Commissioner Rapp reported Kelly Tess has been named the new superintendent. A search is underway for her replacement.

Environmental & Forestry Commission – Commissioner Rapp reported work continues on the sustainability pillars.

Winnetka Parks Foundation – Executive Director Peterson reported a meeting was held May 11. Officers have been identified and the transfer of leadership responsibilities is ongoing; additional board members are still needed.

STAFF REPORTS

Molly Krohe, Marketing Brand Manager – reported summer marketing is underway. The fall brochure will be released online at the end of July; photo and video content is being gathered for a campaign to promote health and wellness.

Costa Kutulas, Director of Parks and Maintenance – reported staff is collaborating with the

Village on the Farmer's Market at the new Station Park site. Dredging was completed at Lloyd and the docks were installed. The estimated cost for dredging is \$10-15k. Several compliments have been received regarding the condition of the athletic fields.

Commissioner James added the board should revisit the proposed sand management agreement between the Village, park district and private property owners.

John Peterson, Executive Director – regarding the paddle court construction - staff continues to work with the two cell tower companies to resolve the agreements; legal counsel is reviewing the construction documents to insure the Park District does not incur any out of pocket expenses related to the additional of two paddle courts.

Jim Crocker, Superintendent of Finance – reported the required annual filings for the Foundation are being completed. Revenue is up compared to last year at this time and expenses are down. Cook County is delayed, possibly six months, in disbursing property taxes to all entities.

The board discussed the delay and the impact it will have on the budget. A cash flow analysis was requested. The liaisons will contact their counterparts to learn how other agencies are responding. The audit will be presented to the board in June.

Executive Director Peterson reported on behalf of Superintendent Berg who is working diligently with staff to fill all open staff positions.

Manager Krohe suggested the link to learn more about the dog beach be included on the lakefront plan.

Libby Baker, Office Associate Baker - noted the limited availability of the Community Room during the summer. Commissioners Root and Archambault agreed Tower Road Beach would be a good location to host public engagement sessions for the dog beach. Work on the policy manual has been set aside and will resume soon.

Commissioner Rapp inquired about the status of communications about the Memorial Day Parade. Manager Krohe explained the various communication pieces being developed and distributed. Additional communications will be released the week of May 16.

CLOSED SESSION

Commissioner Archambault made a motion to go into closed session at 8:00 p.m., pursuant to Sections 2(c)(1), (5) and (6) of the Open Meetings Act to discuss the appointment, employment, compensation, performance, or dismissal of specific employees; the purchase or lease of real property for the use of the public body, and the setting of a price for sale or

lease of property owned by the public body. Commissioner Rapp seconded the motion. A roll call vote was taken. Ayes: Archambault, Codo, James, Rapp, Root Nays: None Motion carried

APPROVAL OF FINANCIALS

Commissioner Archambault made a motion to approve the April 2022 Financials. Commissioner Rapp seconded the motion. Superintendent Crocker reported the current financial position of the District. Following discussion, a roll call vote was taken. **Ayes:** Archambault, Codo, James, Lussen, Rapp, Root, Seaman

Nays: None Motion carried

Superintendent Crocker explained Cook County is experiencing a delay in disbursing property tax payments. This delay will create a budget deficit of approximately \$2.9m for the Park District. He presented the board with a cash flow analysis for the time period January 2020 – April 2022, showing budgeted tax revenue as a percentage of overall revenue. Superintendent Crocker noted Tax Anticipation Warrants are an option for revenue but carry an interest element. The Park District recently learned the issue may be resolved as early as November, not February 2023 as originally noted. Given this new information staff feels the existing cash reserves are sufficient get through the delay. Commissioner Codo expressed her opposition to paying interest. She also noted all tax payers are affected by this delay.

*The board meeting packet was updated on the website to include the cash flow analysis.

APPROVAL OF VOUCHERS

Commissioner Archambault made a motion to approve the vouchers for \$764,966.63 as presented. Commissioner Seaman seconded the motion. A roll call vote was taken. **Ayes:** Archambault, Codo, James, Lussen, Rapp, Root, Seaman **Nays:** None **Motion carried**

REMARKS FROM VISITORS

Peter Rose thanked the board for their work. He acknowledged the many opportunities over this multi-year process to provide public comment, and expressed support of the plan. He added the situation at Elder Beach is dangerous, and asked the board to find a solution.

Allen Welch expressed concern the Elder + Centennial project has moved forward without notice to the community of the ability to offer comment. He requested the comment period be extended or the application withdrawn.

Judy Rauh asked the board to consider withdrawing the current application and consider a new plan. She stated she feels there has not been total transparency.

Laurie Peterson commended the Lloyd Beach renovation. She expressed her feeling the louvers will be a barrier, offering no public benefit, and feels the Park District should be setting the example. She added it is a betrayal of the public trust doctrine to use public property as a bargaining chip.

Nan Greenough stated the louvered fence is troubling; it blocks views and access, and sets up a negative precedent. She requested the Park District not complete the plan.

Sherry Molitor thanked the board for all their efforts. She echoed previous comments and stated it is important for the community to know if the agreement is contingent on the wall being built, and if so, it is wrong.

Mary Garrison stated it is not good if this plan is contingent on the wall. She added the community has lived for a long time with these two parks separated, and the plan can proceed without the property.

Katie Stevens stated a group fought hard to buy this land many years ago. She stated the people own the rights to the lake and strongly requested the board not build a wall. Ms. Stevens expressed her opposition to the plan saying it is wrong, it is selfish, and it sets a precedent. Ms. Stevens suggested the use of trees to provide a privacy barrier.

Stephanie Heraty thanked Mary Garrison for her perspective. She stated she believes the wall is in violation of the public trust doctrine, and noted it was not part of the Waterfront 2030 plan.

Alexandra Nichols requested a show of hands from the audience of those not in favor of the plan. She commented there are many people who feel very strongly about the plan. Commissioner James asked for a show of hands of those not in favor and then those in favor. There was an overwhelming show of opposition.

Chuck Dowding acknowledge his participation with Commissioner James on the Lakefront Advisory Committee. He referenced a sign at Lloyd Beach explaining the rules for walking along the beach. He added this plan is the opposite of what was done at Lloyd and believes there are other ways to complete this project.

Jim Rauh complimented the Waterfront 2030 plan. He stated he feels the only reason the plan changed is because of the private landowner. He urged the board to reject the plan.

Rebecca Ferguson introduced and read a petition requesting the proposed metal barriers be removed from the plan submitted to the IDNR and USACE. She expressed concern the plans will set a precedent. She asked the board to listen to the community, and stand up for what is right. Ms. Ferguson submitted the petition, signatures and comments to the board.

Ryan Kelly expressed his surprise at the opposition to the plan, noting it improves the quality of the beach and is a wonderful addition to the community.

Peggy Coffee commented the beach is important to her family. She thanked the board for all the work completed at the lakefront. She expressed opposition to the fence, noting it is intrusive to the view of the lake.

Randy Whitchurch commented that if the main objective is to address the bluff and protect the shoreline, then there are other ways to accomplish this that would be much more acceptable. Mr. Whitchurch asked for the identity of Orchard 2020, and questioned the secrecy.

UNFINISHED BUSINESS

Elder + Centennial Update

Commissioner James addressed the audience and introduced himself, noting his professional background and prior involvement on the Lakefront Advisory Committee. He recognized the plan has evolved since its adoption, mainly due to the acquisition of 261 Sheridan. Commissioner James gave an overview of the property exchange agreement and acknowledged there is influence from the land swap/property owner. He described the current plan and its benefits, and how the board arrived at the design. Commissioner James commented on efforts to relocate the dog beach, and how neighboring communities control access along the lakefront. Commissioner James then addressed legal advice from

corporate counsel regarding the public trust doctrine, reviewed the design process, and the subsequent permit application process. He explained the IDNR and USACE have extended the public comment period to June 2. Once comments are received from the IDNR and USACE, the board will consider appropriate responses should be made. The board will then deliberate, arrive at findings and fact, and present a resolution to advance the plan. Commissioner James concluded by saying the Park District is trying to provide the greatest good for the community.

In response to a question from Commissioner Root, Commissioner James confirmed Orchard 2020 has agreed to close on the property exchange agreement even if the louvers are not approved.

Commissioner Root cited regulatory guidelines regarding the height of structures. She referenced the Illinois Lakes, Rivers and Streams Act and expressed disagreement with legal counsel about access, noting there are ways to address safety other than building a wall.

Commissioner Root stated she joined the board in May and reviewed the Waterfront 2030 plan, and it did not include louvers nor closed access. She stated her first impression of the true plan was March 24, 2022. Commissioner Root expressed there has not been due notice of the changes to the plan.

Commissioner Root made a motion that the board withdraw these applications for permit with the IDNR and USACE, honor the request of Mr. Dowding, we go back and look at this plan, get further public opinion, and find alternate ways to address the issues. There was no second to the motion.

Commissioner James reaffirmed the August 26, 2021 board vote to proceed with the plan developed and proposed including louvers as seen today. He noted Commissioner Root abstained from the vote. Commissioner James added the public comment period is still open and the board expects to receive comments. He stated this plan advances the goals and objectives of the Park District.

Board Policy Manual Review Chapters 8-13

Office Associate Baker suggested a reformat of the current policy manual and asked for feedback. She noted the redundancy of several chapters. She explained the new format, when presented to the board would include all previously suggested edits and notes referencing each policy's location in the current manual. The board agreed to move forward with developing a new format.

Nick Corwin Playground Equipment Purchase

Commissioner Archambault made a motion to approve the purchase of playground equipment, as presented, from NuToys Leisure Products, LaGrange, IL at a total purchase price of \$102,630.00. Commissioner Lussen seconded the motion. Commissioner James requested an adaptable swing be included. Commissioner Archambault made a motion to approve the purchase of playground equipment, to include an adaptive swing, from NuToys Leisure Products, LaGrange, IL at a total purchase price of \$102,630.00. Commissioner Lussen seconded the motion. A roll call vote was taken. **Ayes:** Archambault, Codo, James, Lussen, Rapp, Root, Seaman **Nays:** None

Golf Course Management

Executive Director Peterson reported the 30-60-90 Day Plan provided by KemperSports Management explains how they would engagement with staff and begin to assess opportunities at the golf course. Staff will meet with them next week to learn more. An initial, competitive bid was received from Troon and will be reviewed by Commissioners Codo and Seaman. Executive Director Peterson stressed the importance of making sure the entire board has a clear understanding of both options.

Executive Director Peterson also reported both companies have been asked about their interest in taking over the course without the stormwater construction piece. Both companies are reviewing the request and will provide a response.

Commissioner James noted a special meeting may be needed to address golf course management and stormwater issues.

*The board packet was updated on the website to include a copy of the 30-60-90 Day Plan from KemperSports Management.

Stormwater Construction

Direct Kutulas reported he is still working with the Village of Winnetka; they are trying to identify the lowest responsible bidder. Staff will be asking the board for approval for the alternate items, as suggested and recommended by staff. He explained the alternate projects are recommended as a way to improve the course and generate additional revenue.

Commissioner James reviewed for the audience the stormwater information related to the golf course. Commissioner Seaman added the Park District needs more money from the Village to complete these projects. Commissioner James acknowledged additional discussions are needed.

Commissioner Rapp commented she reviewed the minutes from the August 26, 2021 meeting. She read the minutes aloud, and noted the louvers were not included in the motion. She asked to be able to review the audio recording from the meeting.

NEW BUSINESS

Executive Director Peterson reported staff is working with the cell tower companies to resolve the easement issues related to the paddle court construction project.

MATTERS FROM THE DIRECTOR

BOARD LIAISON REPORTS

Parks Caucus

Commissioner Seaman reported the June survey will include questions about beach use, a dog beach and a pool. He commended Kristin Kalter for her efforts.

Dog Beach/Dog Park Advisory Committee

Commissioner Root reported initial community engagement began with the immediate neighbors north of Tower Road Beach. The neighbors expressed surprise and requested the dog beach stay at Centennial.

School District 36

Commissioner Rapp reported successfully negotiated teacher union contract. The downsized capital plan is moving forward with the current ask as presented, based on their survey results.

Commissioner James noted as part of the proposed expansion plan the school district has asked for an easement over Park District property, Commissioner James suggested it would be best to convey the property, rather than expand the easement, in exchange for use of the facilities without further changes to the Park District.

Executive Director Peterson reported staff has already begun this discussion with the school district.

New Trier High School

Commissioner Codo reported she spoke recently with the school superintendent regarding the property tax delay.

Commissioner Rapp added she also spoke with D36 about the property taxes and noted the District is not concerned due to their reserves.

Winnetka Parks Foundation

Executive Director Peterson recognized Susan Curry as a new officer. He reported the officers roles were filled during the last meeting.

REMARKS FROM VISITORS

Brad Morehead stated he is a coach for the Park District, and strong user of the parks. He expressed his support of the plan and for the unification of the parks.

Katie Stevens requested individuals speaking should disclose any financial interest in the property. She asked if the board wants the wall to be their legacy. She requested again for the board to come up with a better plan and offered her assistance.

John Root stated he feels there is a failure of imagination, the Park District has the power of eminent domain and has the ability to. The Park District has the ability to take the land.

Jim Rauh reiterated a previous comment that individuals should disclose business interest in all companies and firms associated with Orchard 2020. He expressed his disappointed no one seconded Commissioner Root. Mr. Rauh expressed his feeling the property exchange is contingent on Orchard 2020's approval of the plan, and noted the louvered fence is not necessary to accomplish the previously stated goals.

Sherry Molitor asked for clarification about maintaining views of the late. She applauded Commissioner Root for her efforts to stop the plan.

Laurie Peterson asked why this plan needs to be rushed through, given the strong public sentiment. She explained the community is just finding out about the plan and should be given more opportunity to comment on the plan.

Vicki Apatoff stressed the community is not whining; people just want to express their concern. She expressed her frustration with the process and lack of information. Ms. Apatoff commented the Park District is the only board in the village that does not record their meetings.

Commissioner Seaman expressed his appreciation of the comments received and thanked the audience, stating no one is a whiner.

Commissioner James reviewed recent communications and opportunities made available for the public to learn about and offer comments on the project. The public comment period has been extended to June 2. He again recommended a special meeting June 9 to further discuss the plan. Mary Garrison expressed concern that the Village may not give the Park District the Tower Road Beach property for a dog beach. She then inquired how the transition of golf operations to a management company fits the Winnetka Park District mission.

Commissioner Root suggested the community might appreciate if the co-applicants could approach the IDNR to extend the deadline for public comment to June 16.

Commissioner James replied he does not want to extend the deadline. Commissioner Lussen added the IDNR may not even approve the plan, then all concerns regarding the plan would have to be addressed.

Amy McCarter stated she does not feel like the board is listening and that the ideas and comments stated do not matter.

Commissioner James responded this issue has not gone unnoticed, and the board is listening.

STAFF UPDATES

Kyle Berg, Superintendent of Recreation – reported the boat launch is operational; Tower Road Beach will be open this Saturday and Sunday, with a full opening to begin June 5; revenue from boat rack rental should exceed budget. Skokie Playfields is hosting a Little League tournament this weekend. 4th of July fireworks will proceed as usual; activities will be held at the Village Green. The Memorial Day parade will begin at 10:00 a.m. with the ceremony immediately following. Superintendent Berg recognized New Trier High School for use of their pool for the Park District to provide lifeguard training. Work continues on the IGA with District 36, with completion anticipated by June. Camp revenue has exceeded the budget. One Camp will be held June 13-16; it is 30% full with Waukegan residents. A new sign has been installed at the Stepan Family Boat Launch.

Commissioner Rapp asked about the possibility of opening Elder Lane Beach. Director Kutulas noted there are several areas with exposed metal. Signage will be posted about the danger. Commissioner Rapp then asked about bacteria testing at Elder to get a baseline as there is no accurate current data. Superintendent Berg explained there are not staff available to perform the testing.

Ania Cramer, Community Outreach/Business Development – reported a meeting was held recently with L.L. Bean to initiate a relationship for outdoor programming. A memo is being prepared to provide the board with an update about grant opportunities. Sponsors are being secured for summer activities.

Molly Krohe, Marketing Brand Manager – reported she and Gracie Durham, Marketing

Specialist, have been gathering drone footage of Park District facilities.

 Help stop construction of the massive proposed metal border walls blocking shoreline access & views at Elder-Centennial beach in Winnetka, IL!

To: Winnetka Park District

Illinois Dept of Natural Resources (IDNR)

US Army Corps of Engineers (USCAE)

Thank you for taking the time to read this.

We, concerned citizens, residents, and taxpayers request that the proposed metal barriers at Elder-Centennial Beach in Winnetka, IL be removed from the plan that has been submitted to the IDNR and USCAE.

The plan sent for approval has SIGNIFICANT material deviations from the resident approved 2030 Lakefront plan.

Most notably, two very tall (at some places 13' above water elevation) metal barrier / border fences were added to the design.

These walls are proposed as fencing to sit atop large rocks and BLOCK the both shoreline view and shoreline access (protected by the Illinois public trust doctrine) for patrons of the beach.

We are also concerned that a steel fenced in / walled off beach sets a dangerous precedent that could lead to many more walled in enclaves **destroying the**

continuous shoreline and lakefront.

These fences / walls do not blend with nature and we imagine future generations wondering what the people of the 2020's were thinking.

Water, sand, rocks, are all elements of nature. A man-made steel fence anchored to rocks, towering above the height of people and extending into the water is anti-nature and seems environmentally unfriendly.

We believe the permitters could be built to embrace continuous shoreline access and views, similar to the just completed renovation at Lloyd beach also in Winnetka.

There, they have no steel wall, simply rocks with stone quarry steps allowing continuous access along the shoreline.

Note: Denying access to walking along the water's edge is typically a violation of the Illinois Public Trust Doctrine.

It's also concerning that no residents we spoke with were notified of workshops to develop the modified beach plan and it seems as though the Park district is using taxpayer money to further a special interest. At this time, the residents are also unaware of the cost estimate / source of funds for the project.

We would like residents and the Park District to TOGETHER create / review all plans (and modifications) for Elder-Centennial, always being mindful of the Illinois Public Trust Doctrine and our beautiful natural shoreline.

Just a quick note: please don't donate to change . org unless you want to support them (we are not receiving any of the money) - thank you to everyone who has shared and helped, we are incredibly grateful! Some of the many thoughtful comments collected from residents:

"The louvered steel fence / wall on top of the breakwater is an unproven design that walls in the beach and obliterates the current panoramic view both north and south."

"The top of the steel wall is over 13 feet higher than sand elevation near the water which obstructs the view of the shoreline and impedes the ability to freely walk the beach. The tree plantings will be even taller, as high as 20 feet."

"Shoreline erosion protection and bluff preservation can be accomplished without the downsides of the current design"

"Please consider revising the plan, removing the steel wall that was not approved by taxpaying residents and allowing for passage between the beach similar to what the village provided at newly completed Lloyd beach."

Thank you again for your time and consideration of this important matter please consider adding your comments to the petition!

MEMORANDUM OF AGREEMENT

I. Parties

The Village of Winnetka ("Village") and the Winnetka Park District ("Park District"), collectively referred to as the "Parties" or individually as "Party."

II. Purpose

- A. Pursuant to Article 7, Section 10 of the Illinois Constitution and the Intergovernmental Cooperation Act, 5 ILCS 220/1 et seq., the Park District and the Village agree to the terms and conditions set forth in this Memorandum of Agreement ("MOA" or "Agreement") for the benefit of their respective constituents.
- B. The Park District agrees to provide certain services for the benefit of the Village in exchange for compensation to be paid by the Village to the Park District and other good and valuable consideration pursuant to the terms and conditions of this Agreement. The Village agrees to pay the Park District compensation in exchange for the services described below, pursuant to the terms and conditions of this Agreement.

III. Beach Attendant Services and Costs

- A. Park District will provide an employee to serve as a beach attendant ("Beach Attendant") assigned to the Cherry Street Beach ("Property") pursuant to the terms and conditions set forth in this Agreement. The Park District shall be responsible to pay the Beach Attendants' salary, benefits, workers' compensation, and unemployment compensation, as applicable.
- B. The Beach Attendant services shall consist of the following: (i) verbally direct visitors to remain on public property including the public access area; (ii) verbally direct visitors not to enter private property adjacent to the Property; (iii) verbally direct visitors not to enter Lake Michigan; and (iv) observe behavior, attempt to verbally direct individuals from engaging in any unsafe or unlawful behavior, and report same to the Village's Police Department (collectively, "Services").
- C. Village acknowledges that neither the Beach Attendant nor the Park District shall provide any enforcement, security, or protection services. Park District shall not be liable or responsible to the Village for any personal injury, death or property damage occurring at the Property except to the extent caused by the Park District's gross negligence or intentional misconduct. To the fullest extent permitted by the laws of the State of Illinois, Village hereby forever waives, relinquishes and discharges the Park District, and its park commissioners, officers, employees, volunteers, attorneys and agents from any and all claims of every nature whatsoever, which Village may have at any time against District, its Park Board, officers, employees, volunteers and/or agents, including without limitation claims for personal injury or property damage sustained or incurred by the Village or any person claiming by, through or under Village, relating directly or indirectly to any activity occurring on the Property, except to the extent caused by the Park District's gross negligence or intentional misconduct.

- D. A Beach Attendant will be scheduled to be on duty at the Property from 10:45 a.m. to 8:45 p.m. seven (7) days per week during the Term. The Village will compensate the Park District for Beach Attendant Services as described below for the period 10:30 a.m. through and including 9:00 p.m., seven (7) days per week during the Term pursuant to the following:
 - 1. The morning Beach Attendant will check-in at Tower Road Beach and report to the Property not later than 10:45 a.m.
 - 2. Beach Attendant coverage at the Property will end at 8:45 p.m. and Beach Attendant will check out at Tower Road Beach at 9:00 p.m.
 - 3. The overall Beach Attendant coverage for a given day including clock-in and clock-out time is 10:30 a.m. to 9:00 p.m., or 10.5 hours.
 - 4. The blended hourly rate for a Beach Attendant is \$13.50.
 - 5. The daily cost for Beach Attendant service is \$13.50/hour x 10.5 hours per day, or \$141.75.
 - 6. The Park District will staff the Property when the Park District beaches are opened, beginning the morning of Saturday, June 4 and ending the evening of Monday, September 5, or 94 days.
 - 7. 94 days x 141.75 = 13,342.50. The Park District will invoice the Village of Winnetka monthly for the Services based on hours worked at the rates referenced above.
 - 8. The Village will pay the Park District an additional administrative fee of Ten Dollars (\$10.00) as and for the Services.
 - 9. The Beach Attendant will not provide lifeguard services or first aid as swimming is prohibited at the Property by Village ordinance.

IV. Indemnification and Insurance

- A. To the extent permitted by law, the Village shall indemnify and hold harmless the Park District and its officers, officials, employees, volunteers and agents ("Park District Indemnitees") from and against all claims, damages, losses and expenses, including but not limited to legal fees (attorney's and paralegals' fees and court costs) (collectively, the "Losses"), arising from or in any way connected with (i) any act, omission, wrongful act or negligence of the Village, its elected or appointed officials, officers, agents, employees, volunteers, contractors or subcontractors related to this Agreement, the Property, or the Services; (iii) any accident, injury or damage whatsoever occurring in or at the Property. The Village's duty to indemnify and hold harmless the Park District Indemnitees pursuant to this paragraph does not apply to the extent the Losses were caused by the gross negligence or intentional misconduct of the Park District Indemnitees. Such obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this Paragraph. The Village shall similarly protect, indemnify, and hold and save harmless the Park District Indemnitees against and from any and all claims, costs, causes, actions and expenses including but not limited to legal fees, incurred by reason of the Village's breach of any of its obligations under, or the Village's default of, any provision of the Agreement.
- B. To the extent permitted by law, the Park District shall indemnify and hold harmless the Village and its officers, officials, employees, volunteers and agents ("Village Indemnitees") from and against all claims, damages, losses and expenses, including but not limited to legal

fees (attorney's and paralegals' fees and court costs), arising from or in any way connected with any intentional wrongful act or omission, or gross negligence of the Park District, its elected or appointed officials, officers, agents, employees, volunteers, contractors or subcontractors related to this Agreement, the Property or the Services, except to the extent caused by the negligence or intentional wrongful act or omission of the Village Indemnitees. Such obligation shall not be construed to negate, abridge, or otherwise reduce any other right or obligation of indemnity which would otherwise exist as to any party or person described in this Paragraph. The Park District shall similarly protect, indemnify and hold and save harmless the Village Indemnitees against and from any and all claims, costs, causes, actions and expenses including but not limited to legal fees, incurred by reason of the Park District's breach of any of its obligations under, or the Park District's default of, any provision of the Agreement.

- C. The obligation on the part of either Party to defend, hold harmless and indemnify the other Party shall survive the expiration or termination of this Agreement for any reason, but only for claims that have accrued prior to termination of this Agreement.
- D. The Village shall require any contractor entering into an agreement after the commencement date of this Agreement, who performs any work or provides any services at the Property, to defend, hold harmless and indemnify the Park District to the same extent as required of the Village, and the Village shall include in all such contracts a statement expressly declaring the Park District to be a third-party beneficiary of the contract with respect to the indemnification provision.
- E. The Village shall procure and maintain during the term of this Agreement a policy of General Liability Insurance providing coverage for bodily injury and property damage claims arising on the Property. The policy shall (a) provide "occurrence" based coverage; (b) be issued by a company authorized to transact business in this State under the Illinois Insurance Code; (c) include an endorsement naming the Park District Indemnitees as an additional insured; (d) include contractual liability coverage; (e) apply as primary insurance with respect to any other insurance or self-insurance afforded to Park District; (f) properly acknowledge any insurance or self-insurance maintained by the Park District shall be excess of the Village's insurance and shall not contribute to it; The Village shall provide evidence of said insurance coverage upon request by the Park District, by furnishing the Park District with a Certificate of Insurance and, if requested, a certified copy of the policy issued by the insurer and all endorsements. With respect to the Village's obligations pursuant to this provision, such certificates and policies shall be provided through the Village's self-insurance risk pool, which the Park District hereby finds acceptable. Unless otherwise agreed to in writing between the Village and Park District, the General Liability policy shall have limits of not less than \$5,000,000 per occurrence bodily injury/property damage combined single limit and \$10,000,000 aggregate bodily injury/property damage combined single limit.

V. Security Services

A. The Park District is presently under contract with Seldin Security Services, Inc. ("Seldin") to patrol the Park District's beaches and related parks 8:30 p.m. to 2:00 a.m., beginning Friday, May 27 through Monday, September 5. The Park District has requested that Seldin lock the Property's public access gate at not later than 9:00 p.m. daily. The Park District has

directed Seldin to continue to lock the gate at the Property through termination date of the Park District's agreement with Seldin.

- B. Seldin shall not any have any responsibilities towards the Village with regard to the Property except as specified within the revised executed agreement between the Park District and Seldin.
- C. Neither the Park District nor the Beach Attendant shall be required to enforce any laws, regulations, rules, or ordinances on the Property, and neither the Park District nor the Beach Attendant shall be liable for any personal injuries, death or property damage that may occur on the Property during the Term of this Agreement, except to the extent caused by the gross negligence or willful misconduct of the Park District.
- D. All costs for retaining Seldin shall be paid by the Park District. The Park District shall have no liability to the Village or any third party for any act or omission of Seldin in the performance of the services it will provide pursuant to the terms of this Agreement or pursuant to the terms of the agreement between Seldin and the Park District.

VI. Term of Agreement

This Agreement shall be effective for the period of May 27, 2022 through September 5, 2022 ("Term"), which Term may be extended by the mutual agreement of the Parties.

Governor Pritzker Signs Lake Michigan Rescue Equipment Act

Chicago— Governor JB Pritzker signed HB4165 into law today, marking the creation of the Lake Michigan Rescue Equipment Act. The act, introduced by Rep. Kelly M. Cassidy (D-Chicago), is a crucial step towards addressing recent drownings in Lake Michigan and preventing future accidents by requiring public rescue equipment on all piers or drop-off points on the lake. The act also lays out new guidelines for reporting drowning events and establishing water safety guidelines.

"The stories of recent drownings on Lake Michigan are both tragic and preventable," said Governor Pritzker. "This law will protect countless families from experiencing those same terrible losses and ensure a safer Lake Michigan for the thousands of Illinoisans who enjoy it every year."

The act requires both private and government-owned piers and drop-off points to be outfitted with public rescue equipment such as flotation devices. Beyond requiring easily accessible flotation devices, the act also requires local governments to post warnings in high-incident areas and standardizes reporting of drowning incidents to the Illinois Department of Public Health.

The Lake Michigan Rescue Equipment Act was proposed following the death of 19-year-old Miguel Cisneros, who drowned in Lake Michigan in August of 2021. Cisneros' family and activists in Rogers Park advocated for increased water safety measures after the tragic accident and several other incidents in the neighborhood in recent years.

2020 was one of the deadliest summers on Lake Michigan in years with 56 drowning deaths recorded, prompting legislators and community groups to advocate for laws like the Lake Michigan Rescue Equipment Act. The Great Lakes Surf Rescue Project, a water safety advocacy group, cites Lake Michigan as the Great Lake with the highest rate of drownings. Drownings often happen quickly and with little noise. Public safety officials recommend using wearable flotation devices, closely monitoring children at play, and assessing weather conditions carefully before swimming.

"Governor Pritzker's partnership advancing thoughtful and impactful legislation remains a hallmark of his administration," said State Representative Kelly Cassidy (D-Chicago). "Today's signing of this communitydriven problem-solving initiative continues to illustrate his belief in empowering our communities to seek solutions that work. I'm grateful all to the advocates, especially the Cisneros family, who turned their grief into action and brought us to this day."

"We have had too many tragic and, in many cases, preventable deaths on Lake Michigan," said State Senator Robert Peters (D-Chicago). "Simple rescue equipment like lifesavers are an effective way to help people get to safety in case they fall or find themselves struggling in the water."

"The passage of this law is an example of how democracy should work," said 49th Ward Alderman Maria Hadden. "Thank you to the community leaders who implored us to do more to prevent further tragedies at our lakefront. Having this new standard for saving is the right thing to do to save lives."

"This is great progress toward a safer Lake Michigan shoreline, with so many more life rings becoming available," said Jamie Racklyeft, Executive Director, Great Lakes Water Safety Consortium. "This successful bill can now serve as a template for other Great Lakes states, counties, communities, and parks interested in ways to keep their residents and visitors safer around the water.

"In 2018 on a Chicago beach we frantically searched for something that could float while helplessly watching a child fatally submerge and witnessing several would-be-rescuers turn into victims needing rescuing themselves," said Halle Quezada Rasmussen, Founder of Collective Resource Compost. "This weekend, I stood in front of a life ring at that same spot and whispered to the 13-year girl we lost, 'this is for you.' Of course, it is too late for her and I will never stop wishing this could bring her back, but her legacy will live in this law, ensuring that when the unthinkable unfolds, we will have a fighting chance at survival. I am so grateful to everyone who made this progress possible—if we can reduce preventable deaths, we should and now, we are."

Public Act 102-1036

HB4165 Enrolled

AN ACT concerning water safety.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Lake Michigan Rescue Equipment Act.

Section 5. Definitions. As used in this Act: "Drop-off" means an area of a lake's shoreline that is intended to facilitate direct public access to the water. "High-incident drowning area" means an area within 100 feet of a pier or drop-off where more than one fatal drowning incident has occurred in the span of 5 years.

"Pier" means a man-made, raised structure (such as a breakwater) extending into navigable water for use as a

landing place or promenade or to protect or form a harbor. "Public rescue equipment" includes a range of water rescue devices available for public use in case of emergency, such as ring life buoys, throw bags, rescue tubes, and rescue poles.

Section 10. Public rescue equipment on piers and drop-offs.

(a) The owner of a pier or drop-off on Lake Michigan shall install public rescue equipment, including, at a minimum, ring life buoys, on each of the owner's piers or drop-offs along the Lake Michigan coast. The ring life buoy must not be permanently secured in any way to the station, rack, or pier. Each ring life buoy must be stowed inside a station to protect it from constant weather exposure. The station must be a bright orange or yellow color for high visibility and to allow for quick access to the ring.

To reduce vandalism and theft, the station shall have signage that warns lakefront patrons that tampering with or misuse of public rescue equipment is strictly prohibited.

(b) The owner of the pier or drop-off on Lake Michigan shall oversee the installation and maintenance of the public rescue equipment. The State or unit of local government owning a pier or drop-off shall also provide public education regarding public rescue equipment.

Section 15. Ring life buoy requirements. Ring life buoys installed under Section 10 must meet the following:

(1) The ring life buoy shall meet the requirements of 46 CFR Part 160 Subpart 160.050 or 46 CFR Part 160 Subpart 160.150 for SOLAS-approved equipment or successor standards issued by the United States Coast Guard.

(2) There shall be attached to each ring life buoy a buoyant line of at least 100 feet in length with a breaking strength of at least 5 kilonewtons. The end of the line must not be secured to the shore.

(3) Each ring life buoy shall be marked with type II retroreflective material meeting the requirements of 46 CFR Part 160, Subpart 164.018.

(4) Each ring life buoy shall be placed at a distance not to exceed 200 feet from the shoreline of the lake and be available for emergency rescue operations.

(5) Each pier shall have a ring life buoy installed with appropriate signage.

Section 20. Tracking, reporting, and analyzing drownings. Each unit of local government owning a pier or drop-off on Lake Michigan shall track and, at a minimum of twice per year, publish on the unit's website a report on lakefront drownings of which the unit is aware that have occurred within 100 feet of the unit's piers and drop-offs. The report shall include, at a minimum, a description of access to and use of public rescue equipment, location, temperature, time of day, conditions, demographics, and type of entry into the water. If there have been drownings during the reporting period, each unit of local government must also publish a water safety plan on the unit's website.

Section 25. High-incident drowning area plans. Within one year after an owner's property becoming a high-incident drowning area, the owner shall update and disseminate a water safety plan as well as upgrade installed safety equipment as needed, which may include, but is not limited to, installing equipment that automatically contacts 9-1-1 or other safety improvements.

Section 99. Effective date. This Act takes effect one year after becoming law.

Effective Date: 6/2/2023

 Help stop construction of the massive proposed metal border walls blocking shoreline access & views at Elder-Centennial beach in Winnetka, IL!

To: Winnetka Park District

Illinois Dept of Natural Resources (IDNR)

US Army Corps of Engineers (USCAE)

Thank you for taking the time to read this.

We, concerned citizens, residents, and taxpayers request that the proposed metal barriers at Elder-Centennial Beach in Winnetka, IL be removed from the plan that has been submitted to the IDNR and USCAE.

The plan sent for approval has SIGNIFICANT material deviations from the resident approved 2030 Lakefront plan.

Most notably, **two very tall (at some places 13' above water elevation) metal barrier / border fences were added to the design.**

These walls are proposed as fencing to sit atop large rocks and BLOCK the both shoreline view and shoreline access (protected by the Illinois public trust doctrine) for patrons of the beach.

We are also concerned that a steel fenced in / walled off beach sets a dangerous

precedent that could lead to many more walled in enclaves destroying the continuous shoreline and lakefront.

These fences / walls do not blend with nature and we imagine future generations wondering what the people of the 2020's were thinking.

Water, sand, rocks, are all elements of nature. A man-made steel fence anchored to rocks, towering above the height of people and extending into the water is antinature and seems environmentally unfriendly.

We believe the permitters could be built to embrace continuous shoreline access and views, similar to the just completed renovation at Lloyd beach also in Winnetka.

There, they have no steel wall, simply rocks with stone quarry steps allowing continuous access along the shoreline.

Note: Denying access to walking along the water's edge is typically a violation of the Illinois Public Trust Doctrine.

It's also concerning that no residents we spoke with were notified of workshops to develop the modified beach plan and it seems as though the Park district is using taxpayer money to further a special interest. At this time, the residents are also unaware of the cost estimate / source of funds for the project.

We would like residents and the Park District to TOGETHER create / review all plans (and modifications) for Elder-Centennial, always being mindful of the Illinois Public Trust Doctrine and our beautiful natural shoreline.

Just a quick note: please don't donate to change . org unless you want to support them (we are not receiving any of the money) - thank you to everyone who has shared and helped,

we are incredibly grateful!

Some of the many thoughtful comments collected from residents:

"The louvered steel fence / wall on top of the breakwater is an unproven design that walls in the beach and obliterates the current panoramic view both north and south."

"The top of the steel wall is over 13 feet higher than sand elevation near the water which obstructs the view of the shoreline and impedes the ability to freely walk the beach. The tree plantings will be even taller, as high as 20 feet."

"Shoreline erosion protection and bluff preservation can be accomplished without the downsides of the current design"

"Please consider revising the plan, removing the steel wall that was not approved by taxpaying residents and allowing for passage between the beach similar to what the village provided at newly completed Lloyd beach."

Thank you again for your time and consideration of this important matter - please consider adding your comments to the petition!

| Lilly Avril | US 2022-05-26 literally why would we do this |
| Grace Flatt | US 2022-05-26 I do not support large metal barriers to block shoreline access and views. I also do not support moving forward with any plans that were not approved by resident buryons |
| Cynthia Cata | US 2022-05-26 This wall sets a dangerous precedence for other properties to do the same. |
| Linda Welch | US 2022-05-26 The beach belongs to all of us |
| Joanna Karatzas | US 2022-05-26 This is by far the worse proposal for a natural landscape I have ever seen. What would inspire such an ugly solution to a non-existent problem? |
| Elisa Kirk Bartels | US 2022-05-26 We haven t been able to use Elder for a couple years. I was happy to hear news of improvement. This is anything but. |
| erica chesney | US 2022-05-27 The large metal walls are terrible! We must be able to see the shorelline! |
| Sheila Nielsen | US 2022-05-27 This wall is totally unnecessary. Let's spend our money on things that matter. |
| Laura Heims | 1 US 2022-05-27 I pay a fee to use that Beach |
| Denise Kirshenbaum | US 2022-05-27 I don t like access to the beautiful take view being blocked |
| Ann Buran | US 2022-05-27 The beach belongs to all citizents. Nature looks better than a big steel wall |
| Richard Gentile | US 2022-05-27 Because we must protect our lakefront. We must set a precedence. |
| Eileen Madigan | US 2022-05-28 Proposed wall structure is uply, a terrible precedent and violates the Illinois public trust doctrine. |
| Sandra Freda | |
| Darlene Boehnel | US 2022-05-29 This has to stop! |
| Andrea Strening | US 2022-05-29 I believe in the quality of life of the North Shore and that the lakefront is part of that quality of life and it should not be beneficial at the second |
| Mary Spalding | US 2022-05-29 This will be an eyesore. Use the plant works for what it is intended, if there are environmental non-ens. This is an anti-oct-induction of the second solution of the sec |
| Marilyn Falkenberg | US 2022-05-29 The shoreline should be unobstructed for citizens to enjoy the natural beauty of the lake to the natural beauty of the lake monoton is more than the source of the second on the second |
| Lisa Matyas | US 2022-05-30 Our beachfront belongs to us, |
| Karen Miller | US 2022-05-31 The lakefront should be accessible to all. |
| DANIEL EGELAND | US 2022-05-31 The fence should not be built. The beaches are far everyone |
| Matt Furton | US 2022-05-31 This wall violates the law. The park district should be protecting the public's land which includes all Winney to be the function of the public's land which includes all Winney to be the function of the public state of the public st |
| Beth Dustman | US 2022-05-31 This plan was not originally presented to the residents of Winnetka nor was in struided for our and the contract of the neglecter of the neglecte |
| Anne Juliusson | IUS 2022-05-31 I want to keep the lakefront beautiful and natural. |

Elder & Centennial Design Development Plan Review

Elder & Centennial Design Development Plan

316

Elder & Centennial Plan Components

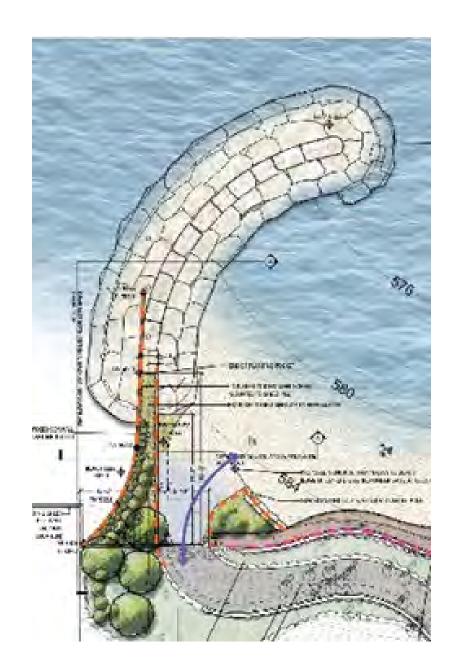

These major components are required to build back the infrastructure to create the vision that imagined in the Winnetka Waterfront 2030 Plan

- Breakwaters with planter pockets
- Center Island "T" pier and walkway
- Sand nourishment
- Relocated stormwater discharge
- Elder north access route
- Bluff Restoration

Elder Breakwater with Planter Pockets

- Reduces the stone required
- Softens the feel of the beach
- Increases the amount of beach that can be used vs. traditional stone breakwaters
- Creates areas for plantings on the beach
- Reduces safety risks/concerns
- Provides infrastructure to secure stormwater discharge pipe

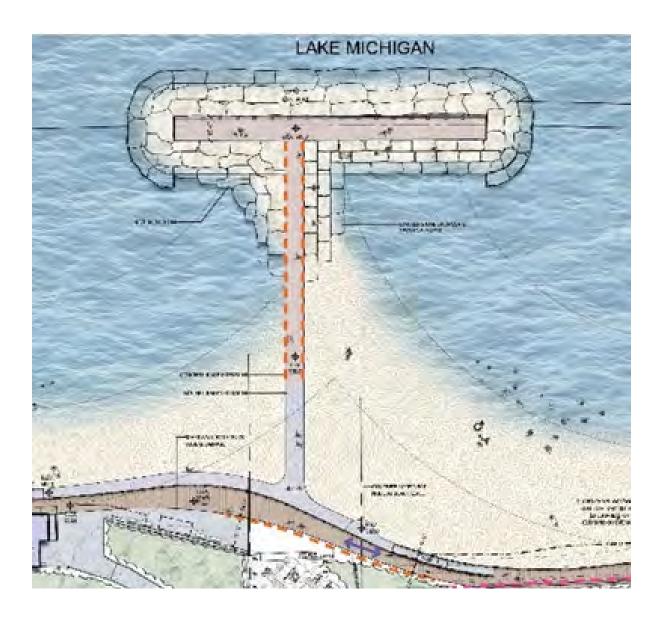

Centennial Breakwater with Planter Pockets

- Reduces the stone required
- Softens the feel of the beach
- Increases the amount of beach that can be used vs. traditional stone breakwaters
- Creates areas for plantings on the beach
- Reduces safety risks/concerns

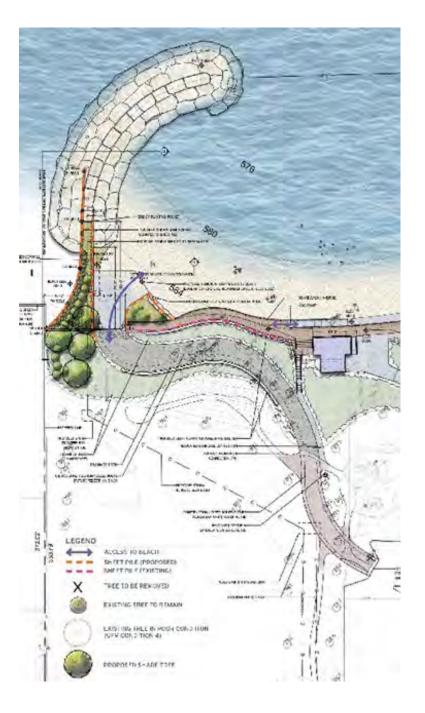

Elder & Centennial Center Island "T"

- Creates the separation of the two beaches and adds the protection to maintain the two bay system
- Replaces the previous pier which is failing
- A destination for users to enjoy the pier
- Stacked stone seating/lounging element
- Designed to be ADA accessible

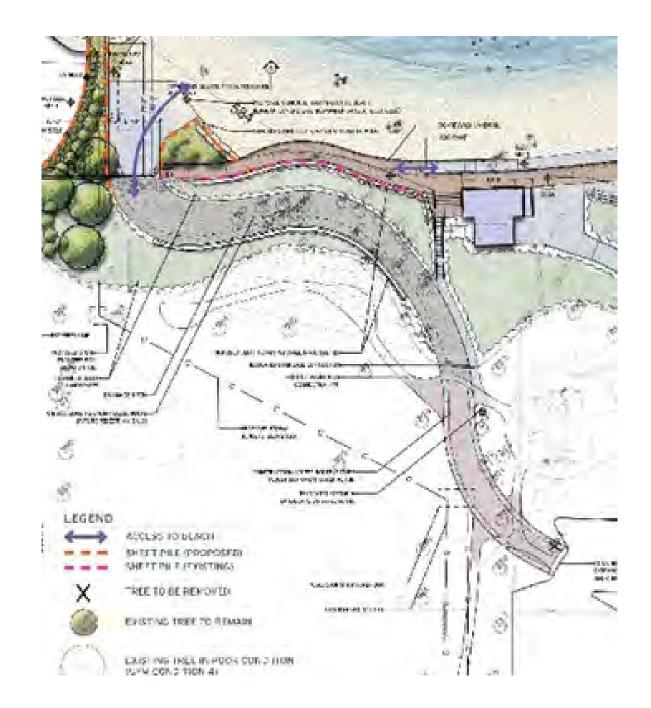

Elder Relocated Stormwater Discharge

- Replaces the damaged infrastructure
- Will provide stormwater to be discharged further away from the swimming beach
- Will help improve on water quality

Elder North Access Route

- Allows for a land based operation vs marine based
- Creates a norther access route for patrons to bring there non-motorized watercraft (kayaks, paddle boards, etc.)
- Doubles as a maintenance access and construction access

Elder & Centennial Bluff Restoration

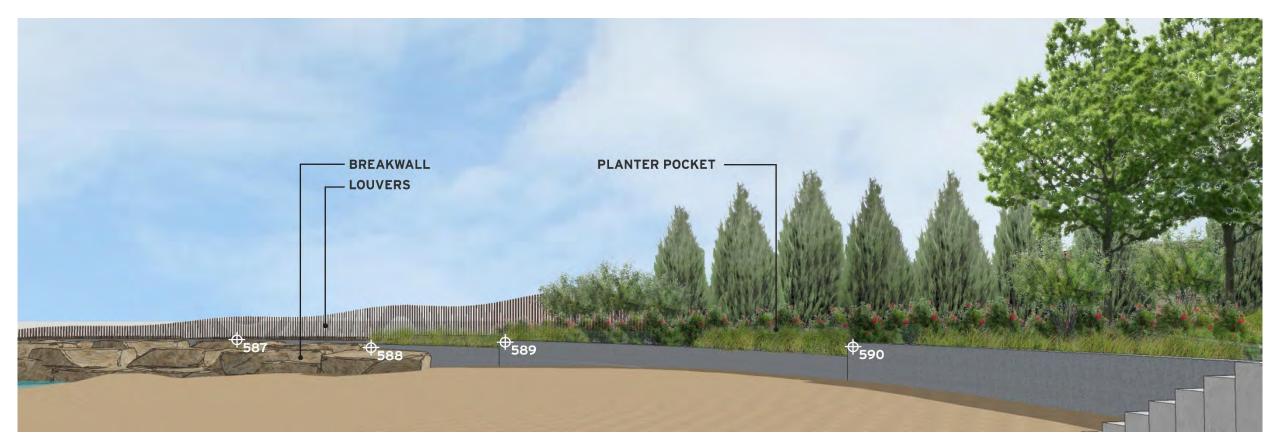

- Selective clearing of invasive species
- Replanting and over seeding of native species
- Opens up the bluffs and will help to create clear views to Lake Michigan

Elder Planter Pocket & Breakwater

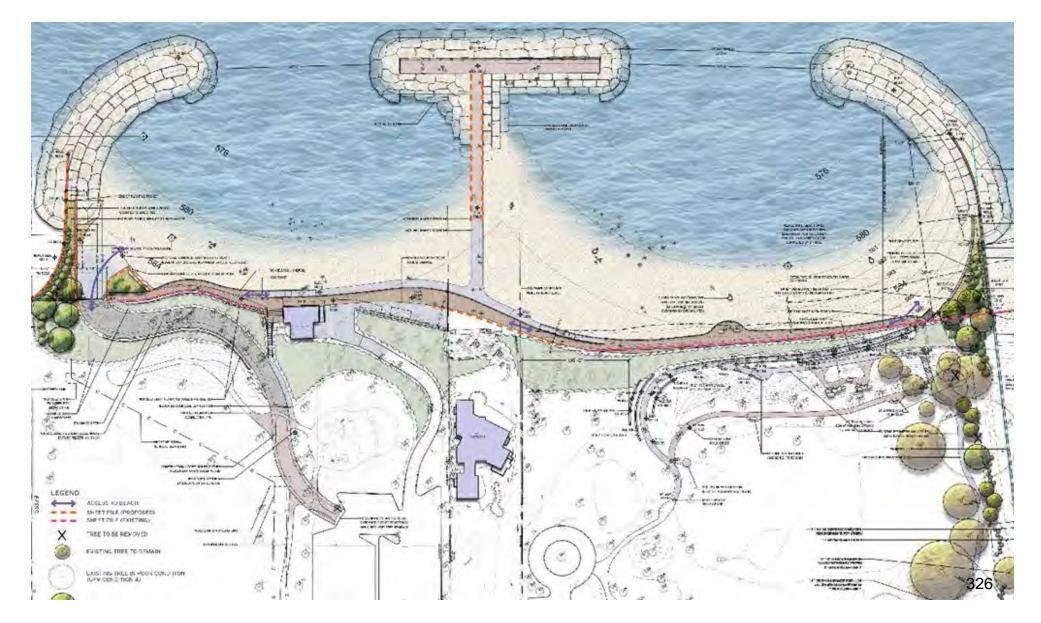

Centennial Planter Pocket & Breakwater

Elder & Centennial Plan Secondary Components

- ADA access
- Continuous boardwalk
